**The leader of the PSD said today that Portugal is “on exactly the same path” as the situation in Greece in economic terms and that, if nothing is done in two years, it could be in the same situation or even worse.**

Manuela Ferreira Leite was speaking at a conference organised by the Portuguese-French Chamber of Commerce in a Lisbon hotel.

“The fact is that, although we don’t have the same numbers as Greece, we are on exactly the same path. So our debt and public deficit is heading on exactly the same path as Greece”, the PSD leader said.
